EQUESTRIAN BUILDINGS

SHEDS | GARAGES | BESPOKE BUILDINGS

A photograph of a wooden building with a corrugated metal roof. The building has a large white door on the left and a smaller window. The text "ABOUT US" is overlaid in the center. The building is made of light-colored wood and has a dark roof. The sky is blue with some clouds. The ground is paved with gravel and concrete.

ABOUT US

Nestled in the heart of Mid Devon, Canopy Timber Buildings Ltd, or better Known as Devon Stables, is a proud family-run business specializing in high-quality equestrian timber buildings. With a strong commitment to craftsmanship, we create custom-designed solutions to meet the unique needs of our clients. Explore our customizable American barns and Stable Yards or let us help design a unique solution for your property.

A photograph of a wooden horse stable with two open doors. The stable is constructed of light-colored wood siding and has a dark metal roof. The doors are made of wood with metal frames. The stable is situated on a grassy area with trees in the background. A white text overlay is centered on the image.

**WHY
CHOOSE
US?**

The background image shows a long, single-story wooden building, likely a stable, under construction. It features a wide, flat roof with a large overhang supported by wooden beams. The walls are made of light-colored wood. Some sections of the wall are covered with oriented strand board (OSB). A gravel path runs alongside the building, and a green and white bag of 'Burliflex' is visible near the entrance. The scene is set in a rural area with green fields and a blue sky.

Reputation

At Devon Stables, we pride ourselves on delivering custom-built, high-quality equestrian structures tailored to your exact needs. Our team offers expertise in planning, design, and craftsmanship to ensure durability and functionality in every project. With a strong reputation for reliability, flexibility, and customer satisfaction, we bring your vision to life with precision and care. Choose us for our commitment to excellence and a seamless experience from concept to completion.

A Beautiful setting for a 3.6x7.2m Stable and store from our Exmoor Specification Bolted to a course of semi engineering bricks and a 150mm Concrete foundation

The Timber We Use

At Devon Stables, we believe that quality starts from the ground up—or in our case, from the very timbers that form the heart of our stables. We take pride in using only the finest, sustainably sourced wood to ensure durability, beauty, and harmony with the natural environment.

The standard specification for all of our buildings is now 19x125mm shiplap cladding and 95x45mm framing. The perfect blend of strength, quality and affordability.

**A custom stable yard with insulated office, perfect for livery yards or stay at home work
Creating the clients dream stable yard is all in a days work for the team.**

Custom Design and Family Values

we understand that every client has unique needs and preferences. That's why we offer bespoke design services to ensure your building is a perfect fit for your specific requirements.

Our custom design process includes:

Tailored Plans

Our design team creates detailed plans and 3D models, allowing you to visualize your project and make any necessary adjustments before construction begins.

Material Selection

Choose from a wide range of high-quality materials to match your aesthetic preferences and functional needs. From timber finishes to roofing options, we ensure every detail is crafted to your liking.

Flexibility

Whether you need modifications to existing designs or a completely new concept, we are flexible and adaptive, making sure that the final product exceeds your expectations.

			PLUS EXTRAS!

A long, single-story wooden building, likely a stable or barn, constructed from light-colored horizontal wooden planks. The building features a series of doors and windows. On the left, there is a large window with a dark frame. Further along, there are several tall, narrow doors, some of which are slightly ajar. To the right, there are smaller, square windows, some of which are also open. The building is situated on a light-colored gravel or dirt surface. The sky is clear and blue, and some trees are visible in the background. The text "Previous Work" is overlaid in the center of the image.

Previous Work

U-Shaped Stable Yard Design

Our U-shaped stable yard combines practicality and style, ensuring a perfect environment for your equine companions. The layout includes:

- Hay Store: 3.6m x 7.2m
- Tack Room: 3.6m x 5m
- Fouling Box: 3.6m x 5m
- Stables: 5 units, each 3.6m x 3.6m

Key Features:

Robust Construction: Built with 95mm x 45mm framing and 145mm x 45mm roof timbers for exceptional durability and strength.

Advanced Roofing: Equipped with fibre cement roofing and lined with 1200mm overhangs to provide extra protection against the elements.

Enhanced Ventilation: Each stable includes rear sliding doors, ensuring optimal airflow and a healthier environment for your horses.

With a focus on quality and customization, our stable yard offers everything you need to maintain a well-organized and comfortable space for your horses. The generous overhangs and robust materials ensure durability, while the thoughtful design enhances functionality and ease of use. Ready to elevate your equestrian facilities? One-of-a-Kind Bespoke Garage and Office Building

Exquisite Craftsmanship, Unmatched Standards

This entirely bespoke garage and office building is crafted to the highest standards, fully compliant with building regulations, and radiates sheer elegance and functionality.

Superior Construction:

Framing: Sturdy 145mm x 45mm framing provides a robust structure.

Floor Joists: Heavy-duty 240mm floor joists ensure stability and strength.

Insulation

Boasting over 200mm of insulation, including 100mm PIR and high-tech foil insulation for exceptional thermal efficiency.

Exterior Excellence:

Shiplap Cladding:

The building is clad in premium shiplap, hand-nailed to the exterior with stainless steel nails for exceptional durability and resistance to the elements. This cladding is fitted over a waterproof membrane and air gap, ensuring optimal protection and longevity.

Stunning Design:

Ground Floor

Features a spacious double garage, with one section offering an elevated ceiling, perfect for fitting a car ramp.

Rear Area

A large kitchen storage area enhances convenience, complemented by a staircase that leads to the upstairs workspace and office area.

Velux Window

Enhances the airy, spacious feel, flooding the upper floor with natural light.

Interior Finish Plastered throughout (not dry-walled) for a smooth, high-quality finish.

From Concept to Completion:

From the initial design to the final touches, this building is a testament to impeccable design and superior craftsmanship. It's not just a building; it's a statement of quality and functionality.

Transform your workspace with a bespoke design that meets all your needs and exceeds your expectations.
